Whig National Convention at Baltimore.

Gathering of Delegates—Speeches in Caucus—Probable Action of the Convention—Nine-Little Family Affair.

Special Dispatch to the N. Y. Daily Times.

HARRISBURG, Tuesday, Sept. 16.

The Seeds are gathering for the National Whig demonstration of to-morrow. The indications are that the Convention will be responsible in point of numbers, and will do its utmost to keep us from going to wreck and ruin.

The Executive Committee have been in session all day receiving delegations. Of twenty-six States that appointed delegates to the Convention, twenty are reported thus far. The total number is one hundred. There probably will be two or three hundred in all.

There is a very unanimous feeling in the caucus to-night, in favor of a union on FILLMORE. It is conceded that BUCHANAN has no chance, and the contest lying virtually between FREMONT and FILLMORE, it is urged as the duty of national men—by which is meant Possibilist Whigs—to unite in strength on FILLMORE. This will undoubtedly be the action of the Convention.

New-York is represented by FRANK GRANGER, Governor HUNT, and WM. C. HAMMOND, and sundry Aldermen and Councilmen from the City.

The Tennessee delegation has arrived, headed by Senator BELL; Massachusetts, headed by GEORGE LUNT; Missouri, by EDWARD O. BATES; North Carolina, by Gov. GRAHAM and Gov. MOREHEAD; Virginia, by WILLIAM C. RIVES; Georgia, by GEORGE A. JONES; Indiana, by JAMES E. B. BURNES; Kentucky, by Judge NICHOLAS, and Pennsylvania, by DAVID PAUL BROWN and Ex-Senator BAYARD.

The Convention will open at noon to-morrow in the Maryland Institute.

CHAPMAN and RIVES are talked of for presiding officers.

Judge TRUMBULL, of Kentucky, has shipped to the property in his inventive packet, which he will present on Thursday.

A great mass meeting in Monument Square is to wind up the proceedings.

A considerable show of delegates is now arriving by trains from the South and West; but there is very little excitement. It is quite a nice little family affair so far.

The Whig National Convention at Baltimore.

BALTIMORE, Wednesday, Sept. 17.

Our city is filling with delegates to the Whig National Convention, and strangers. Most of the hotels are overflowing, and large accessions are expected to-morrow. Delegations have come here from 26 States, namely, Maine, New-Hampshire, Vermont, Massachusetts, Rhode-Island, Connecticut, New-York, New-Jersey, Pennsylvania, Delaware, Maryland, Virginia, North-Carolina, South-Carolina, Georgia, Alabama, Louisiana, Tennessee, Kentucky, Ohio, Indiana, Illinois, Missouri, Michigan, and California. From Virginia, North Carolina, and Georgia delegations claim those States for FILLMORE beyond a doubt. Those from Louisiana, Kentucky, Tennessee and Maryland assert that there is not a ghost of a chance for BUCHANAN.

REPUBLICAN AND NORTH AMERICAN STATE CONVENTIONS AT WORCESTER—DAYTON NOMINATED BY THE NORTH AMERICANS—UNION ON THE ELECTORAL TICKET, ETC.

WORCESTER, Tuesday, Sept. 16.

The Republican State Convention was well attended. HORACE BARTLETT, of Lowell, presided. Among the Vice-Presidents were JOSIAH QUINCY, SAMUEL HOAR and CHARLES FRANCIS ADAMS.

The Fremont and American Conventions, which was also numerously attended, chose LYSANDER L. FLETCHER, of Lowell, President.

The Republican Convention was addressed by Hon. Mr. BAKER, who urged union and harmony.

In the afternoon both the Republican and American Conventions united in an Electoral Ticket, as follows:

At Large—Julius Rockwell and Thomas Gold, of Pittsfield.

Districts—John Visher, of Edgartown; Josiah Wheeler, of North Bridgewater; George B. Russell, of West Roxbury; George Odiorne and Lucius S. Marsh, of Boston; George H. Devereaux, of Salem; James M. Usher, of Medford; J. Nesmith, of Lowell; Jas. C. Knowlton, of Worcester; Charles Forbes, of Northampton, and Franklin Ripley, of Greenfield.

Previously, the American Fremonters had nominated DAYTON for Vice-President in place of JOHNSON, and pledged themselves to labor for the reelection of Mr. SUMNER to the Senate. The American Americans also pledge themselves to hold Congressional and County Conventions on the same day with the Republicans, with a view to a union.

The question then came up in the Republican Convention as to adopting the American State ticket, including GARDNER for Governor. This question was debated at length, until at the evening session the minority, opposed to GARDNER, appeared determined to stave off the question, and there was considerable excitement and confusion. Finally a motion was adopted, that the Republicans would nominate no State ticket. This is satisfactory to the Fremont Americans and insures the united vote of both parties for the Fremont ticket.

New-York Politics.

THE REPUBLICAN STATE CONVENTION AT SYRACUSE.

SYRACUSE, Tuesday, Sept. 16.

Delegates are pouring in from all quarters. Every District in the State will be represented.

Mr. GRINNELL leads the van for Governor.

HENRY B. STANTON, of Seneca, or HIRAM K. SANDS, of Monroe, will probably be nominated for Lieutenant-Governor.

T. B. BAKER, of Washington County, will, probably, be nominated for Canal Commissioner.

WESLEY BAILEY's chances for Inspector of State Prisons is good, and Mr. HICKS, of Livingston, stands well for Clerk of the Court of Appeals.

The Delegates appear disposed to do whatever peace and harmony may require.

American Demonstration in Baltimore.

BALTIMORE, Tuesday, Sept. 16.

The mass meeting in favor of FILLMORE to-night is very large. The different Ward Clubs marched in procession with transparencies, &c. Hon. W. H. SEWARD, of Tuskegee, Gerrit A. FRANCE, of Maryland, and other speakers were among them.

Republican Movements in New-Jersey.

TRENTON, Tuesday, Sept. 16.

The Republican State Convention to nominate an Electoral ticket meets to-morrow in this city. Gerrit W. Corsen, of New-York, addressed a large Republican meeting here last evening, at which much enthusiasm was exhibited.

The Railroad Convention at Cleveland.

CLEVELAND, Tuesday, Sept. 16.

There have been numerous arrivals in the City.

Special Dispatch to the New-York Daily Times.

LAWRENCE, Wednesday, Sept. 17.

After a contest of two days the Free-State prisoners have been released on bail by Judge LECOMPTE, who is now holding the court at Lecompton. They are to appear on the 25th inst. Gen. SHERIDAN's regiment, which was ordered to Osawatomie yesterday, and took dispositions to attack Lawrence, has left for Westport. We will complete a full account of the Lecompton affair, which will accommodate 1,000 men.

Resolutions of Fremont Men.

FRIENDS: The cause of Freedom in Kansas is in a critical but by no means a desperate condition. The Committee have received reliable information, by letters and by special messengers from the Territory, and they assure us that we have good ground for hope. They therefore, at the request of numerous friends, have postponed the meeting of the Fremont Convention, which was to have met at Lawrence on the 17th inst., to the 25th inst., in the hope that the intervening time may be sufficient to enable us to rally the friends of Freedom in the Territory, and to secure the ends for which we have labored.

The real Free-State inhabitants in Kansas are overwhelmingly in the majority, and only need to be assured of the fact to be enabled to assert their rights. Our friends there are not numerous, but they are all of the right stamp, and they need only to be encouraged by the sympathy and support of their friends in other States to enable them to secure the ends for which they have so long and so bravely contended.

Freedom is therefore, under the circumstances, wise and proper.

IMPORTANT FROM CHINA.

Arrival of Hon. Townsend Harris, Minister to Siam.

Conclusion of a Treaty With the Government of Siam.

Special Correspondence of the N. Y. Daily Times.

BANGKOK (Siam) JOURNAL, HONG KONG, CHINA, Sunday, July 6, 1856.

We anchored here on the 12th of June, from Singapore, after a pleasant run of seven days. We arrived at the mouth of the River Menam, (Siam) on the 18th of April. Our arrival was looked for by the Siamese, they had been expecting us for several months. We had on board Mr. TOWNSEND HARRIS, who was empowered to make a treaty with the Siamese Government. Mr. HARRIS, immediately on our arrival, notified the authorities at Bankok (the capital of Siam) of his arrival, and requested an escort for himself and suite to take him to the city. An answer was returned on the 15th. On that day, we received a visit from the Prime Minister, who came unofficially, accompanied by his son, officially, bearing the compliments of the Two Kings of Siam, and giving the assurance of their distinguished consideration. "All things would be made ready."

On Monday, April 21, Mr. HARRIS and suite went to Bankok, and were received in splendid style, by the Kings and Court. Negotiations were not commenced for near two weeks after the arrival of the party. After three weeks of negotiating, the following treaty was "brought forth." I give it in full, with the tariff.

"We shall leave for Japan about the 10th of this month. Health of ship good, so far."

The following is the

TREATY BETWEEN THE GOVERNMENT OF THE UNITED STATES AND THEIR MAJESTIES THE FIRST AND SECOND KINGS OF SIAM.

ARTICLE I.

Truth shall henceforward be perpetual peace and friendship between the Government of the United States of America and their Majesties, the First and Second Kings of Siam and their successors. All American subjects, coming to Siam, shall receive from the Siamese Government full protection and assistance to enable them them to reside in Siam in all security, and free from every facility, free from oppression or injury on the part of the Siamese; and all Siamese subjects, going to an American country, shall receive from the American Government the same complete protection and assistance that shall be granted to American subjects by the Government of Siam.

ARTICLE II.

The interests of all American subjects, coming to Siam, shall be placed under the regulation and control of a Consul, who will be appointed to reside at Bankok: He will, himself, conform to and will enforce the observance, by American subjects, of all the provisions of this Treaty. He shall, also, give effect to all the rules or regulations that are now or may hereafter be enacted for the government of American subjects in Siam, for conduct of their trade, and for the prevention of violations of the laws of Siam. Any disputes arising between American and Siamese subjects shall be heard and determined by the Consul in conjunction with the proper Siamese officer; and criminal offences will be punished, in the case of American offenders, by the Consul according to American laws paid, in case of Siamese offenders, by their laws through the Siamese authorities. But the Consul shall not interfere in any matters relating solely to Siamese subjects; neither will the Siamese authorities interfere in questions which only concern American subjects.

ARTICLE III.

If Siamese, in the employ of American subjects, offend against the laws of their country, or if any Siamese, having so offended or desiring to desert, take refuge with an American subject in Siam, they shall be searched for, and, upon proof of their guilt or desertion, shall be delivered up by the Consul to the Siamese authorities. In like manner, if any American offender, resident or trading in Siam, who may desire to escape to or hide themselves in Siamese territory, shall be apprehended and delivered over to the American Consul, upon the requisition. Chinese, not able to produce American subjects, shall not be considered as such by the American Consul, nor be entitled to his protection.

ARTICLE IV.

American subjects are permitted to trade freely in all the seaports of Siam, but may reside permanently only at Bankok, in which the limits assigned by this Treaty. American subjects desiring to reside at Bankok may rent land, and may continue to reside at Bankok so long as they conform to the laws of Siam; but they can not purchase lands within a circuit of 200 miles (one more than four miles English) from the city walls, nor can they shall have lived in Siam for ten years, or shall obtain special authority from the Siamese Government to enable them to do so. But, with the exception of this limitation, American residents in Siam may at any time buy or rent houses, lands or plantations, situated anywhere within a distance of twenty-four journey, from the City of Bankok, to be computed by the rate at which the boats of the country can travel. In order to obtain possession of such lands or houses, it will be necessary that the American subject shall, in the first place, make application through the Consul to the proper Siamese officer, and the Siamese officer, and the Consul having satisfied themselves of the honest intentions of the applicant, will assist him in settling, upon equitable terms, the amount of the purchase money, will make out and fix the boundaries of the property, and will convey the same to the American purchaser, under a deed. Whereupon he and his property shall be placed under the protection of the Government of the district, and that of the particular chief authorities, in order that, in ordinary matters, to any just demands, give an hire by them, and will be subject to the same taxation that is levied on Siamese subjects. But if, through negligence, the want of capital, or any other cause, an American subject should fail to commence the cultivation or improvement of the lands so acquired within a term of three years from the date of receiving possession thereof, the Siamese Government shall have the power of resuming the property, upon returning to the American subject the purchase money paid by him for the same.

ARTICLE V.

All American subjects intending to reside in Siam, shall be registered at the American Consulate. They shall not go out to sea, nor proceed beyond the limits assigned by this Treaty for the residence of American subjects, without a passport from the Siamese authorities, to be applied for by the American Consul; nor shall they leave Siam, if the Siamese authorities show to the American Consul that legitimate objections exist to their leaving the country. But within the limits appointed under the preceding article, American subjects are at liberty to travel to and fro, under the protection of a pass, to be furnished them by the American Consul, and counter-sealed by the proper Siamese officer, stating, in the Siamese characters, their name, calling, and description. The Siamese officers, at the Government stations in the interior, may, at any time, call for the production of this pass, and immediately on its being exhibited, they must allow the parties to proceed; but it will be their duty to detain those persons who, by traveling without a pass from the Consul, render themselves liable to the suspicion of their being deserters; and such detention shall be immediately reported to the Consul.

ARTICLE VI.

All American subjects visiting or residing in Siam, shall be allowed the free exercise of the Christian religion, and liberty to build churches in such localities as shall be consented to by the Siamese authorities. The Siamese Government will place no restrictions upon the employment by the Americans of Siamese subjects as servants, or in any other capacity. But whenever a Siamese subject belongs to or owes service to some particular master, the servant who engages himself to an American subject, without the consent of his master, may be reclaimed by him, and the Siamese Government will not enforce an agreement between an American subject and any Siamese in his employ, unless made with the knowledge and consent of the master, who has a right to dispose of the services of the person engaged.

ARTICLE VII.

American ships-of-war may enter the river and anchor at Paknam; but they shall not proceed above Paknam, unless with the consent of the Siamese authorities, which shall be given when it is necessary that a ship shall go into dock for repairs. Any American ship-of-war conveying to Siam a public functionary accredited by the United States Government to the Court of Siam, shall be allowed to come up to Bankok, but shall not pass the boat called Four Provinces and Fire-ship, unless expressly permitted to do so by the Siamese Government; but in case there be no American ship-of-war, the Siamese Government will request the Consul, with a force sufficient to enforce the authority of the Consul over American subjects, and to enforce discipline on board merchant shipping.

ARTICLE VIII.

The present trading at Bankok, shall be abolished from the date of this treaty, and in place thereof, the American shipping trade shall henceforth be only subject to such port charges, and such other duties, as shall be established on American shipping in Siamese ports, as shall be established on American shipping in Siamese ports, as shall be established on American shipping in Siamese ports

Our Affairs with Nicaragua.

There seems to be good reason for entertaining a confidence, approaching to belief, that the Central American difficulty has been settled. The reports which reach us do not, it is true, proceed from those journals immediately under ministerial inspiration, though the London *Times* has been lately uttering its usual premonitory soundings, but there are other circumstances which tend to confirm what may be considered the public faith. We perceive that Lord CLARENDON is the Secretary of State selected to accompany the Queen on her annual Summer pilgrimage to her Highland home at Balmoral, instead of Mr. LABOUCHERE, the Colonial Secretary, as originally intended. This fact is sufficiently significant of the Foreign office of England's belief in the halcyon condition of all things Continental. Had the Central American question not been placed in a certain position for arrangement Lord CLARENDON would certainly not have abandoned his post.

It is more than probable that, in accordance with some reliable private information we have received, Lord CLARENDON has gone to play the courtier among Balmoral's bonnie banks and braes, having first arranged the principles of settlement, leaving the working out of the detail to the permanent under-Secretary of the Foreign Office, Mr. HAMMOND, who like all permanent under-Secretaries in the English Departments is the genuine vizier of the place. What Sir GEORGE STREKER was so long to the Colonial Office, and Sir CHARLES TREVELYAN is to the Treasury, Mr. HAMMOND is to the Foreign Office of England, the authority on all points of precedents overruling everybody and everything, but so unobtrusively that no one suspects the existence of his power until after the accomplishment of its object. What Mr. HAMMOND's experience of English and foreign affairs is, may be judged from the fact that he was an *attaché* in the Foreign Office seven years before Lord PALMERSTON was first appointed to the Department. Immediately on Lord PALMERSTON's accession he singled him out for that rare astuteness and unruffled ability, which he has since exhibited and which induced his selection as special envoy to Turkey and afterwards to Spain, and still more recently, as a kind of care-taker and preceptor to Lord JOHN RUSSELL, when he went to Vienna on his Dr. Syntax tour in search of the ridiculous.

Neither is it improbable that rumor has been correct in pointing to Hon. CHARLES PELHAM VILLIERS, as Ambassador to this country, in the event of the settlement of the Central American question. Mr. VILLIERS, though of a very indolent nature, is a man of remarkable ability, strong intelligence, and most courtly grace and gentleness of manner. Except that he is careless in dress, he bears a singular resemblance to his brother, Lord CLARENDON, having his peculiar liquid blue eye, and expression of languid courtliness. Like Mr. CHASE, he is a wonderer on the dreary battlefield above, but his tastes, though illegitimate, are far more gallant. Before receiving his present office of Judge Advocate, he was an able debater and active committee man, in the House of Commons. His annual motions on the corn laws first wakened that public opinion in England, which swept them down, and in the agitation and advocacy of the ballot he has always taken an eager part. Since his appointment he has been doomed to the lucrative taciturnity of the Treasury bench, but his views have always been of a broadth and freedom approaching, if not touching Republicanism. If a selection is to be made, and we are still to be troubled with those mischievous commodities called Ambassadors, a better could not probably be made than Mr. VILLIERS.

The Maine Election.

The Portland *Advertiser* publishes returns from 430 towns, (all in the State but 43,) which give the following aggregate vote:—as compared with 1855:

1856.		1855.	
HAMLIN, (Rep.)	97,081	MORRILL, (Rep.)	59,061
Wells, (Dem.)	43,746	Wells, (Dem.)	47,154
Patten, (Whig)	6,026	Read, (Whig.)	10,236
Totals	116,853		107,978

The towns to be heard from gave last year 9,392 votes. The aggregate vote this year will thus exceed 118,000,—exceeding that of last year by over 11,000. The returns show

Hamlin over Wells	54,335
Hamlin over all	18,299
Republican Gain	17,000
Democratic Loss	4,408
Whig Loss	4,209

It will be seen that the Republican is the only party which has gained at all,—and that it has gained very largely from the old Democrats, from the old Whigs and Americans, and from the new vote. Apply the same rule to all the States subject to precisely the same influences, and a fair conjecture can be formed of the probable result.

In the Legislature the House of Representatives will probably contain 125 Republicans and 26 Democrats; and the Senate 30 Republicans and 1 Democrat.

The Congressional Delegation will stand thus:

District.		
I.	JOHN M. WOOD, (Rep.)	1,800 maj.
II.	CHAS. J. GILMAN, (Rep.)	5,500 maj.
III.	NATHANIAL ARNOTT, (Rep.)	2,500 maj.
IV.	FREEMAN H. MORSE, (Rep.)	7,000 maj.
V.	ISRAEL WASHBURN, Jr., (Rep.)	4,000 maj.
VI.	STEPHEN C. FOSTER, (Rep.)	1,000 maj.

This is a Republican gain of one. Maine, certainly, makes a good beginning!

The two Voices.

Mr. BUCHANAN was the first to sound the alarm that if FREMONT should be elected the South would not submit, and the Union would be dissolved; Mr. BUCHANAN followed to the same tune, then Mr. CASSATT, and after him Bully BROOKS, of South Carolina. These distinguished gentlemen are of the opinion that the South should not and will not submit to the laws, if Col. FREMONT should be elected. On the other hand, GEORGE SANDERS, of Texas, Senator BIGGS, of Tennessee, Senator CLAYTON, of Delaware, and JOHN M. BOTTS, [illegible]

[illegible] Congress, and the [illegible] Slavery, unless it would be wise to aid in the enforcement of these [illegible] and unconstitutional laws.

This is the price at which peace can be obtained. Obedience to these laws:—the silencing of all discussion [illegible] all talk about the policy of Slavery in Kansas;—a tame and complete surrender to the Slave Power,—will purchase peace; and nothing else will. Is it worth the price demanded?

Our Affairs with Nicaragua.

There seems to be good reason for entertaining a confidence, approaching to belief, that the Central American difficulty has been settled. The reports which reach us do not, it is true, proceed from those journals immediately under ministerial inspiration, though the London *Times* has been lately uttering its usual premonitory soundings, but there are other circumstances which tend to confirm what may be considered the public faith. We perceive that Lord CLARENDON is the Secretary of State selected to accompany the Queen on her annual Summer pilgrimage to her Highland home at Balmoral, instead of Mr. LABOUCHERE, the Colonial Secretary, as originally intended. This fact is sufficiently significant of the Foreign office of England's belief in the halcyon condition of all things Continental. Had the Central American question not been placed in a certain position for arrangement Lord CLARENDON would certainly not have abandoned his post.

It is more than probable that, in accordance with some reliable private information we have received, Lord CLARENDON has gone to play the courtier among Balmoral's bonnie banks and braes, having first arranged the principles of settlement, leaving the working out of the detail to the permanent under-Secretary of the Foreign Office, Mr. HAMMOND, who like all permanent under-Secretaries in the English Departments is the genuine vizier of the place. What Sir GEORGE STREKER was so long to the Colonial Office, and Sir CHARLES TREVELYAN is to the Treasury, Mr. HAMMOND is to the Foreign Office of England, the authority on all points of precedents overruling everybody and everything, but so unobtrusively that no one suspects the existence of his power until after the accomplishment of its object. What Mr. HAMMOND's experience of English and foreign affairs is, may be judged from the fact that he was an *attaché* in the Foreign Office seven years before Lord PALMERSTON was first appointed to the Department. Immediately on Lord PALMERSTON's accession he singled him out for that rare astuteness and unruffled ability, which he has since exhibited and which induced his selection as special envoy to Turkey and afterwards to Spain, and still more recently, as a kind of care-taker and preceptor to Lord JOHN RUSSELL, when he went to Vienna on his Dr. Syntax tour in search of the ridiculous.

Neither is it improbable that rumor has been correct in pointing to Hon. CHARLES PELHAM VILLIERS, as Ambassador to this country, in the event of the settlement of the Central American question. Mr. VILLIERS, though of a very indolent nature, is a man of remarkable ability, strong intelligence, and most courtly grace and gentleness of manner. Except that he is careless in dress, he bears a singular resemblance to his brother, Lord CLARENDON, having his peculiar liquid blue eye, and expression of languid courtliness. Like Mr. CHASE, he is a wan

NOW READY!
THE PERILS BY MINE OWN COUNTRYMEN; OR, THREE YEARS ON THE KANSAS BORDER.
By a Northerner, of the Methodist Church.
"Our brethren hold up the musketos coldly,
In lonely chambers are lying,
And their wives on high climb the pleasing cry,
And from [illegible] are flying."
[illegible] Price, paper covers, 50 cents; cloth, 75 cts. [illegible] the author, while acting as a missionary in different portions of the border counties of Missouri, and in the Territory of Kansas, was there before the passage of the Nebraska bill, and was intimately acquainted with the prominent men and events which have made the Territory famous; and with the private feelings and grounds actuating the liberty lives and property of all Northern border settlers.
The narrative only tells, but they are of the starkest and most startling character; exhibiting, in all their living reality, the evil outcome of a crime that unhinges Territorial Sovereignty, and gives to the South, while it cannot fail to be deeply interested in the perusal, will rise from it with a different book of charge that anywhere under the sun, or in any other nineteenth century, should go unheard. MUSICAL INSTRUMENTS.

MELODEONS.
SECOND NEW PATENT
DOUBLE BANK.
Manufactured by
CARHART, NEEDHAM & CO.
No. 95 Grand St., near 3d-st., New-York.
Believing that our instruments are now perfect in every respect, we feel no hesitation in offering them to the public with a confidence that they will give satisfaction. We would call particular attention to the fact that they are the original manufactory where the celebrated Melodeon was first made by our firm, and that Mr. Carhart, the person by whom the patent was granted, is the sole surviving member of the firm to whom the patent was granted; and that he is the inventor of the Melodeon, and has been connected with the business ever since its commencement, and that they will have the benefit of the latest and best improvements.
Our large experience enables us to fill orders for any number and of any style and compass on our list, at short notice.
We would call attention to our
NEW DOUBLE BANK MELODEON,
for which letters patent have just been issued to Mr. Carhart. This instrument has two rows of keys, acting independently of each other, or conjointly, by means of the Coupler, but each row is so constructed that by each row of keys separate tones can be obtained for one set of keys, by means of this combination a great variety of pleasing changes may be produced, such as is not the case
POWER OF A SMALL ORGAN,
and has been claimed by the first Organists in this and other cities to be unequalled.
BEST SUBSTITUTE FOR THE ORGAN
within their knowledge. One of the many advantages which we claim for this instrument is its durability and simplicity of construction, which features were recognized at the Patent Office, as being a great improvement and a refreshing novelty in instruments of this kind. The rapid sale of our
DOUBLE BANK MELODEON
since its introduction, is convincing proof of the high estimation in which it is held by the public. We also have a full assortment of other styles.
The Louis XIV. style, carved legs and panelled back, [illegible] Double Reed, with 2 and 3 stops. The Lowe-piano style, and the 6½ and 5 octave small size, portable style, all of which are made of the best materials, and in the best and most durable manner.
These instruments and a great variety of others are constantly in the instrument rooms now open for public inspection. The QUALITY OF TONE of our Melodeons is SUPERIOR TO THAT OF ANY OTHER MAKERS, who have had the experience in Voicing which Mr. Carhart has had, he being the originator of the science of Voicing Reed Instruments, and by his improvements in which he was the first made in the art, we are enabled to produce a quality of tone unequalled, sounding quickly to the touch, and at once powerful and pure.
By our EXTENSIVE MANUFACTURING FACILITIES, we are enabled to supply dealers on the most favorable terms.
Letters addressed to us will be promptly answered.
PRICE LIST AND CIRCULARS inclosed if requested.
CAUTION.
Dealers in Melodeons and the public generally are cautioned against selling or purchasing Melodeons embracing the improvements secured to J. Carhart, by Letters Patent, unless it shall appear that such Melodeons have been made under a right or license granted by us. We are aware that such parties are infringers of our patent, against whom we are holding suits for damages. All persons who buy, sell or use any of our illegally-manufactured Melodeons, are equally liable with the manufacturers thereof.

INSTRUCTION.

SCHOOLS AND HOME EDUCATION.
MR. LOUIS SEIFF would respectfully announce that he is now prepared, in his own residence, to meet for the private instruction of a few young men, in every branch of a good education. Terms, $100 per annum, including tuition, board, washing, and all incidental expenses. Good primary schools are plenty. For further particulars, address LOUIS SEIFF, No. 47 West 26th-st., between Broadway and 6th-av., New-York City.

CLASSICAL, FRENCH AND ENGLISH SCHOOL.—No. 1 Bleecker-st., will open for pupils Sept. 8. In addition to the regular course of studies for boys, from 8 to 16 years of age, there will be during the ensuing year a Primary Department for boys of from 4 to 8 years. The most advanced pupils of the school will be carried through the studies of the Freshman class of a College, so that, by a year's study, they may be in 1857. Due attention is paid to the moral training of boys, who may be had at the school, at No. 251 34-av., and at A. D. RANDOLPH'S bookstore, corner of Broadway and Anthony-st.
GEORGE C. ANTHON.

NOTICE.—HIRAM SWIFT, TEACHER OF THE Piano-forte and singing, will respectfully inform his friends and pupils in New-York and Brooklyn, that his Fall Term of instruction will commence on Monday, Sept. 15, 1856. I have time to devote to a few more pupils. Early application requested. I may also, pursuant to the choice in vocal music. Address H. SWIFT, care of WM. HALL & SON, No. 239 Broadway, or to MASON BROTHERS, New-York, or A. THURSTON, No. 9 New-York Bible Society Building.

MRS. MEARS' FRENCH AND ENGLISH Boarding and day school for young Ladies, Nos. 29 and 30 West 18th-st., before 8th-av., reopens on Thursday, Sept. 4.
Mrs. M., having just enlarged her establishment by the acquisition of a portion of the adjoining house, No. 30, is enabled to accommodate eight boarding pupils in addition to her former limited number.
Mrs. M. will be at home to receive parents and guardians who may wish to confer with her on and after Sept. 1.

MRS. M. J. PHILBROOK'S BOARDING AND DAY SCHOOL FOR YOUNG LADIES, WESTCHESTER, N. Y.—This Institution is now open for the reception of pupils. All the branches of a complete education taught. The location is healthy and pleasant. Application attended to in the vicinity. Circulars can be obtained of G. SHEPARD, No. 189 Fulton-st.; HENRY W. LAW, No. 216 Broadway, and at HALL'S Music Store.

L. A. BENJAMIN'S ROOMS ARE OPEN for instruction on the piano-forte, melodeon, violin, &c., at No. 206 Allen-st., every Tuesday and Friday (also evenings of same days), and every Monday and Thursday, at the Church in 32d-st., near 3d-av., at 5 o'clock, for young ladies, and at 8½ o'clock for those that attend during the day. 24 lessons in class, $5; for 24 lessons private, $10; for 24 lessons at the residence of the pupil, $15. Piano found. Residence, No. 223 Chrystie-st.

NEWBURGH (N. Y.) BOARDING AND DAY SCHOOL FOR BOYS, DR. CHARLES HINKEL, Principal.—The pupils are prepared for the University, for mercantile life, or for practical pursuits. SANDS' SARSAPARILLA
FOR PURIFYING THE BLOOD.
Health depends almost entirely upon the state of the Blood. If the vitalizing fluid which pervades every tissue and substance, be diseased, with the seeds of disease, sufficient must be the consequence, and small the cause, to overthrow the strongest outer wall, and let in the army that the powerful health-sustaining preparation of SANDS' SARSAPARILLA are intended to drive out. The many cures are therefore, proofs that the enemy is routed, and cures are therefore, proofs that the enemy is routed, and the citadel is in possession of health. Prepared and sold by A. B. & D. SANDS, Druggists, No. 100 Fulton-st., New-York. Sold by Druggists generally.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.—DR. KENNEDY, of Rochester, has discovered an entire new and unknown power in medicine that cures every kind of humor, from the worst scrofula down to a common Pimple.
He has tried it in over 1,100 cases, and never failed, except in two cases, both blunder humors. He has now in his power a certain and confidence of the future, all within 20 miles of Rochester.
Twelve bottles are warranted to cure a running consumption. One to three bottles will cure the worst kind of pimples on the face.
Two to three bottles will clear the system of boils.
Two bottles are warranted to cure the worst canker in the mouth or stomach.
Three to five bottles are warranted to cure the worst cases of scrofula.
One to two bottles are warranted to cure all humors in the eyes.
Two bottles are warranted to cure running of the eyes and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruption of the skin.
Two to three bottles are warranted to cure the worst cases of ringworm, and all other eruptions.
Two or three bottles are warranted to cure the most desperate cases of rheumatism.
Three to four bottles are warranted to cure the salt rheum.
Five to eight bottles will cure the worst cases of scrofula.
A benefit immediately experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.
Readers, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effects of it in every case. So sure as water will extinguish fire, so sure will this cure humors. I never sold a bottle of it but that sold another; after a trial, it always spoke for itself. There are two things about this herb that never to me surprising—first, that it grows in our pastures, in some places quite plentiful, and yet its value hitherto has been known until I discovered it in 1846; second, that it should cure all kinds of humors.
In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1846, I peddled it, and sold about six bottles per day. In April, 1864, I sold over a thousand bottles per day.
No change of diet ever necessary—eat the best you can get, and enough of it.
Dangerous Rose Bug.—Adults, one table spoonful per day; children over 6 years, half spoonful; children from 3 to 6 years, tea-spoonful. As no direction can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.
MR. KENNEDY gives personal attendance in bad cases of Scrofula.
Manufactured by DONALD KENNEDY, No. 120 Warren-st., Rochester, New-York.
Price $1 per bottle, or six bottles for $5.
Wholesale agents for New-York: CHAS. H. RING, No. 193 Broadway; C. V. CLICKENER, No. 81 Barclay-st.; A. B. & D. SANDS, No. 100 Fulton-st., and retailed by all respectable Druggists. Also by Mrs. HAYES, No. 415 Fulton-st., Brooklyn; BARNES & PARK, No. 304 Broadway.

NEW-JERSEY.

Republican Meeting.

A regular meeting of the Hudson County Association was held last evening at their head-quarters in Jersey City. Col. JAMES, of Wisconsin, made an interesting speech, well calculated to strengthen and encourage the Republicans of New-Jersey. The attendance was large. The next meeting of the Club will be held in Park Hall, and will be addressed by ISAAC W. SCUDDER, Esq., of Jersey City, and WILLIAM H. FYE, of New-York.

Probable Murder.

The body of a man, who was probably first robbed and then murdered, was found at 5 o'clock yesterday morning in the water, opposite Sybil's Cave, near the walk leading to the Elysian Fields, in Hoboken. He had been stabbed in two places in the back, and once in the breast. His pockets had been cut out, which leads to the belief that he was robbed. Nothing was found in his pockets except a piece of a circular of an institution in Paris. It is believed that he was a Frenchman or German. Coroner CRANE, of Hoboken, summoned a jury, and the evidence of Wm. E. Farrior, who found the body, was taken, after which the investigation was adjourned to this morning, at 5 o'clock. No clue could be gained to his name. He was, apparently, 35 years old, and was slightly built, five feet eight inches high, of dark complexion, had dark hair, whiskers and moustache, and wore a plaid vest, white shirt, checked pants, cotton socks and shoes. He had on when found no coat or hat. The gash upon his breast was one and three-quarters of an inch in length, and that wound six inches deep. The blade of the weapon had entered his back-bone half of an inch. His body had been thrown from the walk over the wall into the water, which was about two feet deep there, but it caught between two stones, which prevented it from being washed away.

Suicide.

Coroner CRANE held an inquest on Monday at West Hoboken, upon the body of a man named EDWARD WESTCOTT, 40 years of age, who was found dead in the woods near there on Friday last. A pocket-knife was found by his side covered with blood, with which he had cut the veins of his left arm. A phial of laudanum was also found in his pocket, and a slipping noose was tied in his cravat. A note was found in his pocket directed to a friend in a store in South-street, New-York, where the deceased was a book-keeper. Another note read as follows:

"ROBERT HUNT: You have been the best friend I ever had. Spare the innocent who never harmed you or yours. Come when you see this. I am calm. It is the calmness of death."

The jury gave a verdict that deceased came to his death by his own hand while in a temporary state of insanity.

New Banner.

The Republicans of Hoboken have got up a new and splendid banner at their head-quarters in Hudson-street. It is suspended upon a chain, to prevent the opposition from stealing it, as they have two others. They have determined to hoist two banners for every one stolen away.

The Result in Maine.

The Boston *Atlas* says, in its summary of election returns from Maine:

"Thus it would appear that the Republican majority on the Congressional vote is at least one thousand greater than it is in favor of Mr. HAMLIN. This is an important fact, and effectually silences the frivolous pretence of such stupid dough-heads as the New-York *Commercial Advertiser*, that this result is attributable to the personal popularity of Mr. HAMLIN, the fact that he has been a prominent Democrat, and that it furnishes no evidence that Maine will vote for FREMONT in November. Here is a majority of twenty thousand for the Congressional delegation, but one of whom ever was a Democrat, and five of whom were Whigs, when to be a Whig meant to be an opponent of the extension of Slavery."

THE LAST ISLAND CALAMITY.—A search has been made of Last Island, and thirty-three bodies have been recovered. The following are all that have been recognized: Gabriel Greenberg, Jno. Muggah and wife, Jas. Muggah, Mrs. A. Cenac and daughter, Gimble (German Jew) Henry A. Prewett, Miss Ida Magill, Master A. S. Magill, Capt. G. Rader, Mrs. J. G. Turner, Mrs. F. G. Thompson, Mrs. Adrien Fenn, ——Ferguson, ——Fitzpatrick, ——Barrillaux.

Last Island was again covered in part with water on Sunday, Aug. 24, and from a distant view on the day following, the breakers seemed to tumbling high over the island. Strange would be the disposition of those who could make of that place a permanent residence.

TUESDAY, Sept. 16—P. M.

The sailing of the favorite steamer *Persia* or Liverpool at an early hour to-morrow made quite a stir among the Foreign houses to-day; the demand for Exchange was animated, though not excessive, and the preparations for shipping Specie much larger than usual of late. To the engagements of Gobi noticed yesterday as amounting to $1,600,000, there was added to-day about $200,000 in Mexican Silver and $100,000 Gold Coin, making about $1,400,000 in all. The *Fulton*, for Havre, sailing on Saturday, is expected to take a sum equal to about the remainder of the California receipts of yesterday. The Specie movement of the week, however, is neither unexpected nor unaccountable after the late easy course of Exchange, and the Money market is wholly undisturbed by it to-day, and the Stock Exchange was made to feel it but partially, most of the leading Road shares being in good demand again, though at a slight concession except for New-York and Erie which left off firm at 61⅞@61⅝, against 61⅞@⅝ on Monday afternoon. A William-street house, believed to be operating for wealthy outside parties, took over 5,000 shares in the course of the day. The sales of Reading also show a continued free demand, and the transactions of the day, altogether, in Road shares reach nearly 24,000, including 3,000 or 4,000 on the Street. After the heavy sales of Illinois Central Bonds of yesterday, which set the Board and privately, are said to have exceeded $150,000 at 90, the price fell off to 84½@⅝. There was not much done in State Stocks, the supply held on speculation being much reduced and the offers adequate not being when pending an important character. Tennessees, 88; Virginias, 76⅞, and Missouris, 67¾, ⅞ cent. New-York Good Securities for banking purposes have become quite scarce.

There is an ample, though not very cheap, supply of money, and the stock and discount brokers are readily accommodated at 7 ⅞ cent., subject to immediate demand, and 6@9 ⅞ cent. for strictly prime paper; only the very shortest dates current at Bank at 7 ⅞ cent., as the general rule. The Banks move steadily but cautiously, and are mostly discounting their full receipts. The Sub-Treasury received to-day $222,000, paid $211,728, and held at the close $13,751,318.

ERIE ROAD—ELEVEN MONTHS RAILROAD YEAR.

	1854-'55.	1855-'56.
October	529,618	526,340
November	466,193	557,557
December	464,671	559,049
January	437,839	469,366
February	340,751	387,918
March	577,090	466,598
April	506,524	638,070
May	475,127	567,798
June	396,527	479,976
July	379,917	481,351
August	434,779	397,451
Total	4,921,968	5,635,897
Increase		713,929

This statement looks well, the average increase being about 14¼ ⅞ cent. against the serious drawback of bad weather from 1st January to near the close of March. The September return will carry the gross income for the whole Railroad year, which ends on 30th inst., to nearly or quite six and a quarter million.

We learn to-day that the *Atlantic* brings advices that the negotiations for the New-Orleans and Great Northern Road noticed as being on the London market in the extract copied in our last from the *London Times*, has been successful, though whether to the full extent of the proposals put before the English public by Mr. ROSS, or not, we do not hear.

BRITISH TRADE RETURNS—EXPORTS OF 1855-6.

Tot. Exports of Prod. U. Kingdom, 1855		$478,340,425
To British Possessions	$132,764,375	
United States	26,590,430	
Germany	42,928,015	
France	30,022,290	
Turkey	23,129,490	
Holland	22,781,650	
Brazil	18,522,640	
Italy	16,200,845	
Other States	24,120,920	$478,340,425
First half of year, 1856	$260,641,920	
Month of July, 1856	49,841,120	$310,483,040
Same 7 months in 1855	$236,515,545	

The magnitude of the foregoing sums will strikingly illustrate the manufacturing power of Great Britain. They embrace little else than the products of the loom, the workshop and the mine. The contrast with the trade tables of the United States is not less remarkable. Confining this to the returns of 1855, the

Home-made Exp. of Great Britain were	$478,340,425
Home-made Exp. of U. States $136,851,135	
Adding California Gold exp. 52,857,418	$246,608,553

The Exports from this country, exclusive of the product of the gold mines of California, were as mainly agricultural as those of Great Britain were of manufactures. They ranked, in round numbers: 1. Cotton, $68,500,000; 2. Breadstuffs and Provisions, $36,500,000; 3. Tobacco, $14,000,000; 4. Miscellaneous, embracing the products of the Forest and Fisheries, Cotton fabrics to China, South America, &c., $48,000,000.

The relative returns for 1856—our trade year ending 30th June, and that of Great Britain 31st December—will probably show, when officially declared:

Domestic Exports, G. Britain		$300,000,000
Of United States	$265,000,000	
Adding California Gold	35,000,000	$300,000,000

The increase in Domestic Products over the returns for 1855 will come to Great Britain chiefly from Cotton and Woolen Goods and Metals, and to the United States from raw Cotton and Breadstuffs and Provisions. The British returns for the month of July, which have just been made up, show the largest results in Cotton Manufactures, ever registered for that month, and also, exclusive of the largest general total. The month of July, 1856, whose extraordinary shipments were pressed forward to the Ports before the close of August. The deliveries for home consumption in Great Britain were the largest ever known in the same month, while Coffee, Sugar and Tea, owing to the enormous prices, appear to have check has in operation from the high duties connecting July 1st.

Mr. CLEMENT SARGENT, of the American Stock house of E. F. Sargent, of London, and who has been spending several months in this country, in the pursuit of health, than of a number of our leading Railway lines, returns home in the *Persia*; well satisfied, we have reason to suppose, with the object of his visit.

The earnings of the Central Railroad Company, of New-Jersey, for the month of August, 1856, were.....$60,[illegible]
For the same month last year.....[illegible]
Increase.....$19,[illegible]

Money Circular for Europe.

[Translation Extract.]

NEW-YORK, Wednesday, Sept. 10, 1856.

Since our advices of 6th inst., the resumption of some animation in our Stock market, then noticed, has gone on increasing. A rather active speculation has prevailed on the Securities and Shares of a number of the leading Railroads, resulting, after a few fluctuations, in a considerable advance of prices. This rise was particularly large on Illinois Central, both Bonds and Shares, which attracted especial attention. State Stocks have scarcely participated in this movement, and during the continued absence of European demand for general investment, City and County Bonds, as also the Bonds of Western Railroads, have, with few exceptions, remained neglected. Whilst the regular receipt of Gold from California are uninterrupted, Specie shipments to Europe have remained moderate, and money continues easy to procure. The epoch is at hand predicted by many when a great stringency in the money market might be looked for, but none of the signs, usually forerunners of such an event, have as yet been felt. The approach of the season when a full supply of Exchange on Europe is required from the South, diminishes the probability of any great loss of specie by our banks, and the fears of serious stringency during this Autumn is being gradually dispelled. State Stocks have scarcely experienced any fluctuations exceeding an advance of 2 on California 7s, 1875, and of ¼ ⅞ cent. of the 7s of 1870. This rise is due to the announcement that the last July interest then far remaining unpaid, has been provided for in this City. There was some activity in Missouri 6s at ¼ decline, and in Virginia at ¼ rise. Railroad Bonds: There was a more general demand for these transacted at the Stock Exchange. Illinois Construction were very brisk, and rose 2¼. Freelands with few sales advanced 4 per cent. There was also a fair inquiry for Erie 7s, 1859, at an advance of 2, and for 7s, 1871, for Hudson 2d mortgage and New-York Central 6s at well supported prices. The New-York Central 6s receded 1¼ ⅞ cent. Railroad shares—With the exception of Panama, which receded 3¼, there was a general decided advance upon last week's prices, although there was some decline to-day. This rise was 1¼ on Illinois Central. There was through the week a well sustained activity on the following, and sales as follows: on Erie 1, on Cleveland and Toledo 1, on Reading 1¼, on New-York Central ¼, on Michigan Southern ¼, on Michigan Central 1¼, on Chicago and Rock Island 2¼, and on Cleveland and Pittsburg 2 ⅞ cent. Milwaukie and Mississippi with moderate sales have advanced 3 ⅞ cent. Money in good demand, but easy to procure on call at 7. Paper rather better held at 8 to 11, according to length and class.

DE COPPET & CO.

Money Circular for Europe.

[Translated Extract.]

NEW-YORK, Tuesday, Sept. 16, 1856.

Since our advices of the 8th inst. the upward movement then noticed has continued and Railroad Stocks especially show a considerable advance upon our last quotations, the largest rise being in Illinois Central Stock, which went up 7¾ ⅞ cent. in a few days; the outside demand for dividend paying Western Railroad Stocks, generally, has much increased, causing an improvement in prices of from 1 to 1½ cent. Railroad Bonds have been a little more active this of late, but at rather weaker prices, excepting Illinois Sixteen, Erie 1883 and Erie 1875 Bonds, of which several lots have been taken for the Europe. Money has been in very good supply throughout the week, but rates have undergone no change. State Stocks—Tennessee fluctuated 1, Virginia advanced ¼, and California 1875 Loan ¼ ⅞ cent; Missouri and Louisiana still at former prices. City and County Bonds—The only sales worth mentioning have been in St. Louis City and County Bonds without change in rates. Railroad Bonds—Illinois Central have been active, closing at an advance of 1; there was also some demand for Erie 1883 and 1875 Bonds, the former advancing 2, and the latter ¾; Erie 1871 Bonds sold at a decline of ¼; N. Y. Central 6s, 1; N. Y. Central 7s, 2; and Hudson River 2d Mortgage, ¼. Railroad Stocks—The business has been very large at a general advance, except Panama, which went down 1¾; N. Y. Central, 1¾; Michigan Southern, ¼; Michigan Central, 1¼; Illinois Central, ¼; Cleveland and Toledo, 1¼; Chicago and Rock Island, 2¼; Cleveland and Pittsburg, 1¼; Galena and Chicago, 1¼; Milwaukie and Mississippi, 1¾; Harlem preferred has taken another start, selling as high as 60; La Crosse and Milwaukie stock having lately been dealt in to some extent, we hereafter shall quote it regularly. Money is in good supply on call at 7 ⅞ cent. discount; 7@8 for first-class paper; 10@12 for names less known. Exchange—The supply of bills is moderate, and sales are very firm. Sterling, 109¾@¾; Paris, 5.16¼@5.15.

Semi-Monthly Circular for Europe.

[Extract.]

The dullness which prevailed in the Stock Market at the date of our last report was shortly after its issue, succeeded by an increased demand, particularly for the leading Railroad Shares, under the influence of which business has become much more active, and a material improvement in prices has been realized. This favorable change is attributable mainly to a better supply of money, consequent upon the adoption of a less stringent policy by the banks—their returns for the fortnight showing no further reduction of loans—and an increasing confidence in the favorable course of financial affairs during the Autumn. The weekly shipments of specie have fallen below the current receipts of gold from California, and the imports of merchandise, although still considerably in excess of those of last year, are decreasing, while the season for activity in the export trade is approaching. The purchases of stocks are principally for domestic account, the orders from abroad continuing unimportant. The market for Railroad Shares has been very active. The settlement of time contracts, made during the Summer by operators for a decline, has caused an active demand for cash Stock, and the comparatively low prices of many of the dividend paying roads, in connection with the increased earnings shown by the last reports, have induced large purchases, in anticipation of a further advance. The largest transactions have occurred in Erie Railroad, which touched 63 and closes at 61¼, an improvement of 7⅞ ⅞ cent. upon our last quotation. Reading, notwithstanding the decreased earnings in August, and the deficiency in net profits for the current year, as compared with the last, has also had an upward tendency, the advance during the fortnight being 3¼ ⅞ cent. In New-York Central there is an improvement of 1¼, in Cleveland and Toledo 1, in Galena and Chicago 3, Chicago and Rock Island 2¼, Michigan Southern 4, Michigan Central 2¼, and Panama 2 ⅞ cent. For Illinois Central Railroad the demand was for some days largely in excess of the supply, and the advance in price very rapid. On the 12th instant there were sales at 119¼, but the demand having been since more freely met, there has been a slight reaction, and the closing quotation is 117@117¼, or 8 ⅞ cent. higher than that of 2d inst. The sales of the fortnight amount to about 5,000 shares. Of the rights, the sales have been very small, at 116@116¼. The sales of lands in August were 21,298 acres, producing $601,744. The aggregate proceeds of sales to 1st inst. are $7,602,160. The demand for specie for export having been more than met by the California receipts, the decrease in this item has been caused by payments to the Sub-Treasury and remittances to the interior. Money is quite abundant at 7 ⅞ cent. on call, and 8@9 for first-class paper. The market for foreign exchanges has been active for the fall and closes firm.

Cotton Circular.

[For Times.] NEW-YORK, Wednesday, Sept. 17, 1856.

After a fortnight of dullness, with occasional small declines, an active demand for home use and resale set in, and the tendency for the past four days has been steadily upwards. Later the sales have averaged about 1,500 bales daily. The Liverpool advices to the 4th inst., were received on Saturday afternoon, since which our market has shown additional firmness. We cannot report as favorably upon the growing crop as we would wish, in view of all the interests concerned. The drought which was complained of a month since, has now continued up to a period in this season, that a change to one wetter would not be a blessing, as it would have the tendency to force the growth of the plant, instead of fruiting. The reports are decidedly uniform from the extent of fully one-third of the country, the plant is small, and the yield is expected to be light. The bottom lands are doing well, and if fall be favorable, may deliver their full complement. There will be a material falling off from last year. There will be a marked difference in the growth of land in cultivation from that of last year, the Texas cotton, as also from sugar plantations the Texas cotton, as also from sugar plantations. The Texas crop, which was estimated at the last accounts, had three successive showers, which are supposed to have damaged 50,000 bales of cotton, considerably. Public opinion is therefore favoring a crop of about 2,000,000 bales, and accordingly we do not feel inclined to place much reliance upon the reports of the old cotton in the interior is low, and the new cotton is less than in any of the past five years.
